

Ballybunion Insignia Defined Returns Fund

Monthly Factsheet – December 2024 – Class A Shares (Euro)

*For qualifying investors only – this is a **capital at risk** investment product which means that clients may lose part or all of their investment and therefore it may not be suitable or appropriate for all potential investors.*

Investment objective and strategy

The investment objective of the Fund is to generate long-term capital growth. The Fund has a target return of 7-9% per annum over rolling five-year periods. It invests in a diversified pool of defined-return equity strategies (structured products) (“Notes”). The Fund aims to produce positive returns in all but extreme negative equity market scenarios.

The Fund will primarily invest in Euro denominated Notes which are structured as autocall or kickout type payoffs. The Fund may also invest in different payoff structures and/or GBP or USD denominated Notes. The Fund can invest in index-based Notes, single and multiple, stock basket-based Notes and single stock Notes. The Fund will usually hold ten to fifteen Notes, with an approximately equal split by notional value and counterparty exposure.

Monthly update

For December the Fund declined by 0.2%. The MSCI World Index (USD) declined by 2.7% for the month, with the Dow Jones faring particularly poorly, falling by over 5% on the month.

December was active with two Notes autocalling as expected, delivering strong risk adjusted returns over the hold period (ca. 12% annualised). We have replaced one Note with another very defensively structured note yielding in excess of 12%. The Fund has relatively high cash holdings presently which we hope will allow us to take advantage of opportunities that will inevitably present in Q1.

Key facts

Fund structure	Qualifying Investor Fund
